SUMMARY

As a Software Engineer with 1 year of experience, I specialize in full-stack web development using JavaScript. My expertise spans from front-end technologies such as HTML, CSS, JavaScript, and React to back-end technologies including MySQL, MongoDB, Node.js, and APIs. I am dedicated to continuing to learn and improve my skills in these areas, as well as expanding my knowledge to include mobile app development using Swift and Kotlin. Currently, I am working as a Software Engineer intern at Grads Mobile.
